I am passionate about creating visually stunning design that helps brands grow. My passion lies in creating visually stunning designs that elevate brand presence and drive growth. To do this, I enjoy the challenges of research and employ various methods, including seeking guidance from YouTube videos, particularly when working on WordPress websites. With over 7 years of experience as a freelance graphic and web designer, I have successfully crafted promotional material for both web and print, making me a valuable asset for any company seeking a skilled graphic designer.

During my current tenure as a remote Freelance TV App Content Layout Graphic Designer with Hospitality Vision, I specialize in designing layouts for apps catering to hotels, lodges, and retirement homes. My responsibilities extend to creating promotional materials such as business cards, flyers, letters, ads, TV ads, slides, and more utilizing tools like Adobe InDesign, Canva, Adobe Photoshop, and Adobe Illustrator.

As a freelance graphic & web designer I get various projects that deal mostly with web design and a lot of the time I use WordPress for websites. My clients are local artists and business owners. One project I worked on was with Oslund Design a local design agency for an estimate span of five months I helped them with redesigning one of their clients website building it on SquareSpace. I helped them build the site enough so they were able to get something in front of their client so the head designer could work on it further.

I hold an Associate of Applied Science degree in graphic design, a Bachelor's in Art, and a certificate in UX/UI from the University of Oregon. This educational background, combined with my extensive freelance experience, enables me to collaborate effectively with clients to enhance their engagement and expand their target market. While I appreciate the flexibility of freelancing, my goal is to transition into a full-time graphic designer role within a business or agency, seeking the stability and security that comes with being part of a team.

Sincerely,

Lynette Slape

**Technical:** Adobe Photoshop, Adobe Illustrator, Adobe InDesign, WordPress, HTML5/CSS3, Adobe Premiere, Canva, and Figma.

## Project

### Start-up Business WordPress Design / <https://sunrisepaverrestoration.com>

I updated a free WordPress site for a start up business owner in a few days. I added photos and updated the layout so it is more user friendly and presentable as a professional business.

**Used:** WordPress

### Cranial Sacral Solution WordPress Website / <https://cranialsacralsolution.com>

In a two weeks I built this WordPress Website that consists of 5 pages with logo design, flyer, and business card to help my client promote this website.

**Used:** Adobe Illustrator, WordPress

### E-commerce WordPress Website / <https://timfoxphotos.com>

In a month time frame I designed and laid out an e commerce website for photographer Tim Fox with his photographs and designed his logo on his homepage. I update this website every month with new photos on the product and gallery pages.

**Used:** WordPress, Adobe Illustrator

### Volunteer Graphic/Web Designer / <https://brightminderichment.org> / <https://vaccinationrewards.org> / <https://streetcare.us>

For three years and counting I have been volunteering as a graphic & web designer for Bright Mind a nonprofit updating their WordPress websites and help with creating their assets that include logos, business cards, flyers, newsletters with Mailchimp to send to supporters, and for events. I was one of the main designers that helped the most with design needs but they brought in more designers so there are more helping out. My freelance design jobs has picked up so only if they are in need for something urgent or if someone needs access to any of their assets.

**Used:** WordPress, Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Canva, MailChimp

### Art WordPress Web Design / <https://mer-art-studio.com>

In a four-week time frame designed and laid out an art website for artist Meredith Dalglish with three pages that includes a studio, production, and art

**Used:** WordPress, Adobe Photoshop
